Reasons for Allowance

The following is an examiner's statement of reasons for allowance. This invention relates to a method of treating specific diseases by administering a compound of formula (I). The obviousness-type double patenting rejections previously of record have been overcome since Application 09/977,761 has been abandoned as of June 20, 2006 and the claims in Application 10/411,491 have been amended and are currently directed to a different method of using the compounds. Therefore, the instant claimed invention is allowable.

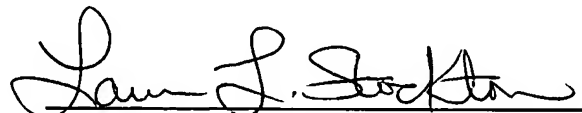

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
